

apua by vallone®

Crafted by earth: High-quality marble collection for exceptional bathroom interiors.

The bathroom interior brand VALLONE® presents APUA, a collection made of 100% natural marble. The collection comprises three individually configurable components: APUA Monolith, APUA Boards and Tops. By preserving the naturalness and originality of the stone, which is quarried around the Apuan Alps in Italy, each basin, top and board is unique in modern bathroom concepts.

EVERY PIECE IS UNIQUE

Marble is an extraordinary material. Created by metamorphosis under the massive pressure of the mountains and under the influence of extreme temperatures. APUA is 100% natural: rare and precious marble varieties translated into an iconic design collection. Stones as the earth created them, shaped into exclusive design objects for the bathroom.

Each individual stone undergoes a precise selection and production process. Refined in a silk-matt finish, the marble retains its natural look and feel. Each of the selected marble types has a unique grain with singular patterns and colors that make every APUA product one of a kind.

APUA MONOLITH

Monolith is a sculptural work of art for stylish bathrooms. A unique object that defines exclusive settings in individual bathroom interiors with its purist, cubic style. This unmistakable signature piece is designed by nature itself and can be individually configured in terms of marble type and dimensions: high-quality marble types, three basin lengths (60, 80 and 100 cm), various apron heights and the fitting can be designed as desired. Each individual stone undergoes a precise selection and production process. Refined in a silk-matt finish, the marble retains its natural look and feel. Each of the selected marble types has a unique grain with singular patterns and colors that make every APUA product one of a kind.

APUA MONOLITH

A linear slab of marble as an elegant and flexible design accent for the bathroom: APUA tops and boards are versatile interior elements that can also be elegantly positioned as a board variant beyond the wash area. As tops and boards, the marble slabs can be installed free-hanging or in combination with VALLONE® bathroom furniture or as a base for VALLONE® countertop basins.

VALLONE® stands for exceptional design, uncompromising quality and a clear vision: to create spaces that are both functional and aesthetically outstanding. With a portfolio characterized by timeless elegance and modern lines, VALLONE® has established itself on the international design scene as a style-defining interior brand.
