German Design Award Winner 2026.

A sculptural statement in marble. With ETERNO, VALLONE® ATELIER sets a new architectural benchmark in contemporary bathroom and interior design – and has been honored with the German Design Award 2026 in the category Excellent Product Design – Bath and Wellness. Carved from solid marble, the basin captivates with an iconic silhouette inspired by the clarity and symmetry of ancient architecture.

CENTER OF TRANQUILITY

ETERNO reveals its strength by becoming the quiet center of any space: a place of contemplation that unites presence with subtle serenity. Its harmonious curves, echoing the enduring form of ancient columns, embody permanence, stability, and timelessness. Every contour and surface is designed to create balance and anchor the room.

Crafted from a single block of natural stone, each piece of ETERNO is unique in texture, depth, and character. Three exclusive marble varieties are available: Elysian Grey, Arabescato, and Rosso Levanto. With flexible placement options, the basin opens up a wide range of design possibilities in interior concepts while making a powerful, timeless statement.

ESSENCE OF FORM

ETERNO is a study in reduction – a design defined by clarity, calmness, and strength. The raw authenticity of marble lends the object a distinct depth; its sculptural presence shapes the atmosphere of a room in a subtle yet powerful way. A design piece created to endure.

Statement by the German Design Council: "The impressive sense of calm emanating from its gentle curves and harmonious form makes »ETERNO« a striking focal point in sophisticated interiors. Inspired by the clarity of ancient architecture, the project convinces through flexible placement and authentic materiality. Especially the powerful balance of permanence and aesthetics elevates this basin to an exceptional level within its field".
